- Make college-level content accessible to all your students without sacrificing the rigor required for success.
- Topical organization—36 topics aligned directly to the College Board[®] framework.
- Within each of the six course units, the content, topics, course themes, and learning objectives focus on developing the economic thinking skills and knowledge for AP[®] exam and college success.
- Each topic includes an Essential Question, a narrative aligned to the course framework with real-world microeconomics examples, and Key Terms.
- Extensive AP[®] exam preparation includes hundreds of topic-specific multiple-choice and free-response questions, and a full-length practice test modeled on the AP[®] Exam.
- A separate Teacher Resource includes an answer key; correlations to the CED; and reproducible activity pages that cover topics such as justice, race, and other microeconomic issues.

Updated questions based on AP Exam formats

- 108 multiple-choice questions
- 36 sets of short free-response questions
- 6 sets of long free-response questions
- plus 1 complete practice test modeled on the AP[®] Exam

Features to develop skills tested on the AP[®] Exam

- **Think as an Economist**—topic activities focus on microeconomic skills (principles and models, interpretation, manipulation, and graphing and visuals).
- **Economics Perspectives**—unit activities explore the diverse views of microeconomists.
